Coach Atlantic Transportation Group Inc. ("Coach Atlantic")

Application to amend Motor Carrier License 4268

NOTICE

The Coach Atlantic Transportation Group Inc. ("Coach Atlantic") applied to the New Brunswick Energy and Utilities Board and to the Nova Scotia Regulatory and Appeals Board to amend the terms of its services and rates for its intercity bus service provided across the Maritimes with the following requests:

a) to reduce the minimum service frequency in the Halifax–Moncton route corridor from three (3) daily frequencies to two (2) daily frequencies – maintaining only one mid-day run in each direction (while keeping the ability to increase the number of trips in this corridor, including morning and evening runs as demand requires);

b) to maintain the existing base rates for tickets purchased at least 48 hours before departure, but allowing Coach Atlantic to implement "dynamic pricing" by increasing the base fares by up to 35% for tickets bought closer to departure;

c) to allow promotional pricing on specific routes, travel dates or booking windows, with discounted rates up to 35% of applicable base rates;

d) to implement new refundable and non-refundable rates. The refundable rates premium would be subject to a minimum charge of $5 and a maximum charge of 20% of the ticket price;

e) existing Youth, Child and Round Trip discounts will continue; and

f) to delete certain "flagged stops" from its licenses which have not been used by Coach Atlantic and have not been available on its website.
